Weather conditions and general forecast: There has been little change in the weath-

er conditions during the last twenty-four hours. Rain has fallen in southeastern Virginia, thence southwestward over limit-ed areas to Georgia. Rain has also fallen in the lower lake region, Minnesota, Wis-

consin, Nebraska, Kansas, New Mexico and extreme western Texas. The temperature

changes have been unimportant.

Generally fair weather is indicated for all

districts, except possibly northern New England and the Florida peninsula. The

temperature will rise slowly east of the

The winds along the New England and middle Atlantic coasts will be fresh south

to southeast. From southeastern Virginia to the Florida coast fresh north to north-

east winds will continue tonight, becoming westerly Wednesday. Fresh west to north-west winds will prevail on the lower lakes.

Steamers which depart Tuesday for Euro-pean ports will have fresh easterly winds

and showers to the Grand Banks.

AVOID CONFLICT

Printing Pressmen Will Not Hereafter

Join National Guard.

FORMAL ACTION TAKEN THIS MORNING

Opposed to Interference of State

in Labor Troubles.

ROUTINE PROCEEDINGS

The printing pressmen decided this morn-

ing at their convention that they would

not hereafter join any state national guard

organization. This action was taken with-

out much discussion on a motion made by

James F. McMullen, delegate from New

York. The reason for this action, as given

briefly, is that members of the craft do not

believe in weakening their powers in a

strike and have no sympathy with state

The morning session of the second day of

the convention was brief but active. It

was called to order at 9 o'clock by Presi-

dent Bowman. An address, which was con-

sidered of great importance to the craft,

was delivered by Mr. F. K. Driscoll, labor

commissioner of the American Newspaper

Publishers' Association. Mr. Driscoll dwelt

on the importance and advisability, as well

as desirability, of having agreements in

writing between organizations of pressmen and the association of employers which he

represented. These agreements, he said,

could run for a year or longer, and should contain exact specifications regarding wages, hours and even minor details of work. He strongly advised the convention

to sanction conciliatory methods on the part of local unions in dealing with labor troubles, and also counseled that a conciliatory and arbitration board be formed.

Mr. Driscoll's address was received with

evidences of appreciation and approval on the part of the delegates.

Reproof to Non-Unionism.

An incident occurred this morning which.

showed the strong union feeling of the delegates. It was noticed during the session that Bernard Nolan of Chicago, a pressman, who is regarded as a notorious David A. Gourick and Maurice Kelly were

non-union man, was seated in the gallery

of the hall. A motion was at once made

by one of the Chicago delegates that a

committee be appointed to escort Mr. No-lan from the convention. It was not neces-

sary for the committee to act, however, as Mr. Nolan arose and stated that he would

go, and immediately left the convention.

A contest was made regarding the seat-

ing of the Philadelphia delegation of feeders. The union to which the contested

seats belonged was declared to be not in good standing with the international or-

ganization by reason of its non-payment of the per capita tax. Through the discussion

it was brought out that some trouble re-garding a strike of the pressmen in that

city had led to a partial separation of the Feeders' Union there with the international

body. The pressmen regarded the contest this morning as demonstrating that they

were to maintain the dominating control of

the international organization as against

the feeders. The result of the contest was

further consideration, although the opinion

is freely expressed that the delegates in

performance in the ampitheater, preceded by a dinner.

AUTO FOR CHIEF BELT.

District fire department hopes to make arrangements soon after July 1 for the purchase of an automobile buggy for the use of First Assistant Chief Belt. This step is believed to be preliminary to the equipment of the other assistant chiefs with like vehicles and the ultimate placing of auto apparatus in service throughout the department. A local electric vehicle con-
